Dear Parents and Juniors,

The Department of Student Personnel Services has scheduled an orientation session with Juniors and their parents to help them begin their college research and exploration. We realize what an exciting, yet stressful and overwhelming process this is for students and their families. To help facilitate this process we are offering a college orientation session on February 16, 2012, which should last approximately one hour, beginning at 6:30 P.M. in the Auditorium. The following topics will be covered: examining your goals, time management, beginning your search, the admission process, completing applications, sports, and any questions you may have.
