

FOR IMMEDIATE RELEASE
FAMILY ADDICTION NETWORK

WEST LONG BRANCH, NJ - The Family Addiction Network will be hosting their monthly meeting at the West Long Branch Community Center on May 17, 2016 from 7:00 pm to 8:30 pm where families and friends can seek support in dealing with addiction in a non-judgmental, compassionate and receptive environment free of charge.

Drug Dogs Are Not Only For Law Enforcement

Have you heard of K9 Cabo??

We are thrilled to have Lou Krupkin and Cabo to present for our May 17th meeting. Together, they offer a K9 sniffing service that offers families immediate notification if there is a potential problem in your home. This service is completely discreet and confidential.

Mr. Krupkin will share how narcotics detection K-9s are selected, trained and work. In particular, focus will be on how these talented and dedicated K-9s work in the private sector for an anonymous service that is designed to help families, schools, business and rehab centers be safe and hopefully drug free. As a security professional who had the opportunity to team up with an elite K-9 unit during special operations when serving in the IDF, Lou decided to become a certified K-9 handler 3 years ago, dedicating that service to help individuals, families and organizations maintain a drug free environment. He has worked with and continues to work in the area of security including counter terrorism, security consulting, and protective services for individuals, companies, organizations and events including responsibility of security for thousands of participants. Mr. Krupkin is certified as a Police K9 Handler, although working in the private sector. As a part of the presentation, there will be a brief demonstration.

Whether you are looking to rule out or confirm the presence of narcotics in your home or business, this presentation is not to be missed!
