## Contents: ABOUT THE A/B BLOCK

Several years ago Shore Regional High School Faculty Advisory Committees, in conjunction with our administrative team and monthly Principal's Parent Forum attendees began discussing/exploring options to our academic format in search of a schedule that more closely mirrored a collegiate structure.

With the overwhelming majority of our students attending college after high school, the primary focus for migrating to a block schedule was to prepare them for this experience. The (alternating day) A/B block schedule allows students the most academic flexibility while maximizing their educational opportunities.

In addition to this alternating block format, we have incorporated an “Academic Support Period” into each school day. This time allows for students to meet with teachers in an academic study period for support/homework/projects etc. ASP will also serve as an opportunity for support services to conference with individual students and/or groups. This period is required for all students grade 9-11. All grade 12 students “*in good academic/disciplinary/attendance standing*” are permitted to leave at the conclusion of the 4th block.

The block schedule provides the opportunity for students to take up to 40 credits each year of their career at SRHS. It also provides more time-on-task as they prepare for a future on the collegiate level.

We look forward to taking on this exciting endeavor collaboratively with the faculty, parents, and students of the Shore Regional Community.

Thank you,

Vincent DalliCardillo
