

Regulation

CLASS SIZE

The following procedures in regard to class size will be used to determine the approval and scheduling of classes:

- A. A maximum enrollment for academic sections, generally, will be 30 students. The maximum enrollment for laboratory courses will be governed by the number of work stations available in a specific laboratory classroom;
- B. Any class section with 15 or more students will be approved;
- C. Classes with an enrollment from 10-14 students will be approved at the discretion of the board with the recommendation to be made by the superintendent.
- D. All courses in Special Education and in the Basic Skills Improvement Program are exempt from these regulations;
- E. Discretion is granted to the superintendent to amalgamate courses, whenever possible, in order to avoid the canceling of classes with small enrollments.
