September 30, 2022

Dear Shore Regional Learning Community:

Prior to my arrival to the district on July 1, 2022, a replacement scoreboard was ordered for Feeney Field. The delivery and installation of the sign ordered before my tenure in the district was completed in late August of 2022. This week it has been brought to my attention that there are several community members and alumni very upset that the section of the old sign which included a list of football championship years was not included in the ordering specs for the new replacement sign.

With that being said, I am in the process of evaluating the situation and will bring my findings and options for remediation to the Board of Education as soon as my discovery period and research has been completed. The final decision and district approval for appropriate and cost effective options to recognize the football team and all Shore Regional Championship Teams playing on Fenney Field will be determined in an equitable manner in the very near future.

As a former athlete, coach, and your proud Superintendent, I am confident that myself as well as our entire Shore Regional High School Athletic Department is sensitive to the culture and history of both our athletic and academic accolades. Therefore, I will continue to keep our school community posted as our district moves forward with the next stages of the sign remediation plan for Feeney Field.

Respectfully yours,

Dr. Lisa J. English  
Superintendent

Working in collaboration with all stakeholders, we pursue a shared vision of a high quality regional high school that puts *students first*.

Our mission of the Shore Regional High School District is to produce altruistic graduates who are lifelong learners, equipped with unlimited capacity to compete in a superior manner.
